BIOGRAPHY

I'm 16 years old and an aspiring web developer and designer, who likes to dabble in graphic design every now and then. Raised by my grandparents, I self taught myself coding since 2015. Other than computers, I also like to play tennis, visit museums, and stroll through parks to stimulate my creative side. Being a part of the LGBT community, I want to be an example that you don't have to fit the stereotype to do what you love. Currently living in Michigan and finishing high school while building up my portfolio.

EXPERIENCE

RANKED ONE-THIRD IN NATION

BPA | May 2018

Ranked within the top one-third of the BPA Fundamentals of Web Design at BPA Nationals held in the Gaylord Texan Hotel in Dallas, Texas.

1ST PLACE IN FUNDAMENTALS OF WEB DESIGN

BPA | Mar 2018

Won first place in the Fundamentals of Web Design at the BPA Michigan States Competition, competed at Davenport University, and awarded at the Amway Grand Plaza Hotel in Grand Rapids, Michigan.

1ST PLACE IN FUNDAMENTALS OF WEB DESIGN

BPA | Jan 2018

Won first place in the Fundamentals of Web Design at the BPA Regionals Competition held at Henry Ford Community College in Detroit, Michigan.

SHADOWED A WEB DEVELOPER

Gravity Works Design + Development | Jan 2018

I job shadowed Christina Gorton, a front-end web developer who works remotely for Gravity Works Design + Development. I learned much from her and from the other developers and designers who worked there.

FREELANCE WEB DEVELOPER & DESIGNER

Freelance (under the name MIASKE) | Jan 2018 - Present

Doing websites and graphics for non-profit organizations and entrepreneurs to build up my portfolio. Coded, developed, and designed my whole website portfolio during this time, http://www.miaske.com.

EDUCATION

CTE WEB DESIGN

Carlson High School | Sep 2017 - Present

Learning CSS, JavaScript, forms, and PHP.

CERTIFICATION

MTA: HTML5 Application Development Fundamentals

Microsoft | May 2018

Candidates for this exam are seeking to prove core HTML5 client application development skills that will run on today's touch-enabled devices (PCs, tablets, and phones).
